This timetable will provide 4 hours of learning per day, however there will be extra resources available on Showbie should your child wish to use them. Please send learning back to us each day through Showbie and we will give feedback.

Class discussion will be available between 8.35 - 9.00 for children to ask questions 🙋

During free time we would like you to select an area where you would either like to practice a skill, improve your learning or to complete a physical activity. Some examples of tasks have been provided but you can select an activity which suits you best.
