FRIDAY 15TH MARCH 2024

This week has been filled with fantastic science-focused activities for British Science Week 2024 and this year is its 30th anniversary!

The children have thoroughly enjoyed trying new experiments and learning all about this year's theme 'Time'.

We have seen curiosity, awe and wonder during some explosive, gruesome and risk-taking experiments.

All staff have been overwhelmed by the effort, and time, that has gone into the experiments that the children have brought into school to share with their peers.

Thank you to all parents and carers for supporting our enthusiasm during Science Week, we can't wait for next year already!

We have all enjoyed welcoming Dan Worsley back into school this week, he told us some funny tales and had us all laughing in assembly!

Year 5 had a great day visiting Jodrell Bank on Thursday, they took a guided tour of the Solar System and discovered constellations in the Space Dome. They enjoyed all of the exhibitions and learnt how the Lovell Telescope views the Universe and all about live science!

Have a lovely weekend!

Year 6 visited the Science & Industry Museum in Manchester on Thursday and they had a great time! They explored forces, circuits and they even had time to try some creative experiments.

They also managed to pull up a car using a crank and some pulleys!

Dan Worsley

We LOVED our visit from local author, Dan Worsley, on Tuesday afternoon!

He visited the whole school and told us of his journey from teaching at Layton 12 years ago to deciding to follow his dreams of becoming a children's author. Dan also reenacted one of his stories to us in a hilarious assembly!

Hopefully we will see him again soon!
